

## **Business Careers Program Held at NCC**

The Student Affairs Office and Business Department jointly sponsored a Business Careers program on March 4, 2009 for students to explore careers and majors in business. An audience of nearly 80 students attended a panel discussion on "Executive Perspectives on Careers in Business," in the Gen Re Forum, followed by four job search and work readiness skills workshops held in East Campus classrooms. Later, lunch was served in the Culinary Arts dining room where students gathered with business faculty and recent grads for informal roundtable discussions. The event culminated with a business dress-for-success fashion show.

From left to right are panelists from the Executive Perspectives discussion: investment advisor Rich Bochicchio, attorney Mike Cacace, human resources recruiter Ron Costa, and marketing executive Wayne LoCurto.
